

# THE THEMED EVENT

Welcome to our Themed Cocktail Package, where we transform your gathering into an unforgettable themed night, whether you're feeling the tropical vibes of a Tiki night or the suave sophistication of a James Bond/007 affair. The choice is yours!

Once you've selected your theme, our experienced team will curate a bespoke menu of four cocktails that perfectly capture the essence of your chosen theme. From exotic Tiki blends bursting with fruity flavours to classic martinis reminiscent of Bond's favourite beverage, each cocktail is crafted to transport you and your guests to a world of themed excitement.

During the event, our skilled mixologists will be on hand to shake, stir, and pour your chosen cocktails with precision and flair, creating an interactive and engaging experience for all.

But that's not all! We believe in making your event as seamless and enjoyable as possible. That's why we offer the flexibility to cater to your specific needs. Just inform us in advance of how many cocktails each guest desires, and we'll ensure the right amount of stock is on hand to keep everyone's glass full throughout the evening.

With the event lasting approximately 2 hours, it's the perfect pre-drinking activity to kickstart your day or night of festivities. So, whether you're celebrating a special occasion, hosting a themed party with friends, or simply looking for a unique and memorable experience, our Silver Service promises to set the stage for an unforgettable evening filled with themed fun and delicious drinks. Cheers to a night to remember!
