

THE MASTERCCLASS

Welcome to our Gold Service Cocktail Making Class, where you'll embark on a journey through the art of mixology like never before. Gather your friends and join us for an immersive experience filled with fun, flavour, and newfound skills.

During this 2-hour class, you'll dive into the rich history of two classic cocktails, learning about their origins and the stories behind them. But we won't stop there - our expert mixologists will also introduce you to two modern cocktails created by Juiced Mixology, crafted from the finest ingredients for a truly unique taste sensation.

Our class is not just about learning - it's about having fun! In between mastering cocktail techniques, we'll incorporate games to keep the energy high and the laughter flowing. However, if you prefer a more formal lesson, we're happy to accommodate.

Throughout the class, our knowledgeable instructors will guide you through the most professional cocktail-making techniques, ensuring you leave with a repertoire of new skills to impress your friends at your next gathering. But that's not all - to kick off the experience, each guest will receive a welcome drink to set the tone for the evening. And to keep the spirits high, we'll also provide shots in between cocktails, adding an extra element of excitement to the class.

Whether you're celebrating a hen-do, birthday party, or simply looking for a fun night out with friends, our Gold Service Cocktail Making Class promises an unforgettable experience filled with laughter, learning, and delicious cocktails.

Conveniently, we offer this service from the comfort of your own home or from a venue of your choice. Just let us know your preference, and we'll bring the cocktail-making magic to you. Cheers to unforgettable memories and delicious drinks!
